Profile

I am a graduate of the Diploma 3 (D3) informatics engineering Program at Batam State Polytechnic, class of 2022. I have a strong interest in mobile and Android development using Kotlin and Jetpack Compose, and I possess academic skills in the field of informatics engineering, including web development, database management, mobile application development, frontend, and backend. In addition to my academic skills, I also have organizational experience within the informatics engineering students association and excellent communication skills, as evidenced by my role as Master of Ceremony for one of the association's programs, the HMTI Award, and my appointment as Chairman of HMTI for 2024.

Education

POLITEKNIK NEGERI BATAM

2022 – 2025

D3 Informatics Engineering

GPA I – VI Semester : 3.85 / 4.00

STUDI INDEPENDEN

February 2024 – June 2024

Android Mobile Development & UI UX Design (Infinite Learning)

MAGANG DAN STUDI INDEPENDEN BERSERTIFIKAT

August 2024 – December 2024

Mobile Developer Intern (Infinite Learning)

INFINITE LEARNING

January 2025 – July 2025

Mobile Developer Intern

Experience

Project Based Learning

February 2023 – June 2023

Website Logistic Catalog (Fullstack Developer)

- Creating and designing responsive web pages using HTML, CSS, and Bootstrap.
